

## SPRING Technologies showcases NCSIMUL *SOLUTIONS* and Innovation at the INDUSTRIE PARIS 2012 show

***SPRING Technologies will be showcasing its latest innovations  
at the leading French show at Paris-Villepinte, March 26 - 30 2012***

Paris, February 22 2012

SPRING Technologies announces that it will be at **Industrie Paris 2012**, one of France's leading technology exhibitions, to be held from March 26 to 30 2012 at the Parc des expositions de Paris-Nord Villepinte - Halls 4 and 5A (<http://www.industrie-expo.com/>).

SPRING understands just how business-critical innovation is for industry today and has demonstrated its ability to develop solutions for tomorrow **by participating in France's [2012 Innovation Trophies](#)**.

(<http://www.industrie-expo.com/~SPRING-TECHNOLOGIES/fiche-exposant~ohrsIsdyb~49530>).

Visit booth 5N57 to see the complete NCSIMUL SOLUTIONS offering for the simulation and optimization of production processes and ramp up global productivity in your workshop.

SPRING will be demonstrating its latest NCSIMUL SOLUTIONS, all seamlessly integrated into the leading CAD/CAM, PLM, ERP and MES solutions that form the backbone of the digital product process. The NCSIMUL portfolio includes:

- Simulation and optimization of NC programs (machining, drilling, riveting)
- Capitalization and management of cutting conditions
- Tool management (cutting tools and checks)
- Optimization of manufacturing processes for composite materials
- Editing and publication of manufacturing documentation
- Viewing and sharing of NC program simulation
- Monitoring in real time your production means activities (programs, CNC machines....)

With its range of services (consulting, CADECOLE training organization, industrialization, post-processor development), SPRING Technologies brings you know-how and skills in all its fields of business and technology, offering you comprehensive insights into all your industrial processes.

### About SPRING Technologies

With over 30 years' industrial experience in the field of manufacturing, SPRING Technologies has gained worldwide recognition as a software vendor for the production environment with its global offer NCSIMUL SOLUTIONS and as a PLM integration services provider regarding the leading solutions on the PLM market.

NCSIMUL SOLUTIONS offer is modular and proposes solutions for:

- Machining simulation and optimization - NCSIMUL
- Cutting tool management - TOOL EXPERT
- Cutting conditions Optimization - TOOL SIMUL
- Process documentation management - WIPLINK

The company is today one of France's leading integrators of PLM solutions, notably in mechanical CAD/CAM, and offers services in consulting, assistance, development and training. SPRING Technologies has built solutions around market-leading software from PTC, Dassault Systèmes, Siemens PLM and SAP, integrated in a collaborative working environment.

SPRING Technologies, founded in 1983, has a workforce of 120, and offices in Paris, Geneva, Toulouse, Frankfurt, Munich, Beijing and Boston.
